

Pickup from 7-8 a.m. Reserved for those At-Risk

Our Commitment:

As part of Walmart's continued Corona Virus response efforts, Online Grocery Pickup service from 7 to 8 a.m. will be reserved for seniors, first responders, customers with disabilities, and those considered by the CDC to be at high risk from COVID-19. While this time has been reserved for these groups, all other pickup and delivery times are open for their use as well.

Pickup Availability:

Beginning April 14th, this reserved hour will be available in many Walmart Stores offering Pickup service. To determine if Pickup is available in your area, [check this location map](#).

Product Availability:

As you probably know, there's a very high demand for paper goods, cleaning supplies, and similar items. As we work to restock those high-demand products as fast as possible, we have set a limit on the number that can be purchased. Beginning March 19, our stores enacted purchase limits in certain categories including paper products, milk, eggs, cleaning supplies, hand sanitizer, water, diapers, wipes, formula, and baby food.

Your Safety and the Safety of Our Associates:

Just as increased safety protocols have been instituted inside our stores, our Pickup Associates are following enhanced distancing and sanitation procedures to prevent the spread of the Coronavirus.
